 - b) It is the initiative that the school district to help get info out to the community about the schools, about the future of estes park and the direction that we are heading how we are striving to become the best school in the state
 - c) One of the things that want to do is to rethink what education should look like – our basic system was built for the industrial age which hasn't changed much since then (1888) – but the future looks different
 - d) We have to compete globally – India has more honor students than we have students total – our challenges have changed
 - e) We want to include the community in the discussions – what ill we need in the future, like
 1. Empathy
 2. Communication
 3. How to work together as teams
 4. How are we to train our kids to solve problems for issues we don't know exist yet
 - f) Estes thrives is about how do we look at this differently – trying to build what is best for our kids in Estes Park and connect
 1. Nurturing the whole community – we are all learners
 - a. Technology has changed – how do we adjust
 - b. We are all learners
 - c. How do we handle that info – we want to nurture that learning experience
 2. Influence that future – to help the kids learn to work globally
